

CLERK'S OFFICE ALERT

Mandatory E-Filing for Attorneys Moves to July 1, 2009

As recommended by the King County Superior Court's Executive Committee, and subject to a vote of the Judges on May 26, the date for implementing mandatory electronic filing for attorneys will be July 1, 2009. This one month reprieve will allow additional time for filers to use and become familiar with the E-Filing application prior to the mandatory e-filing start date.

An enhanced version of the E-Filing application is scheduled for release the first week of June 2009. This new version of the application will include streamlined filing processes, an electronic working copies component, e-mail notifications and other customer friendly features. Additional demonstration sessions on the enhanced application will be noted on the Clerk's E-Filing web site soon. Note that training is optional and that as with many other websites, no training is necessary; however help is available if you do have questions.

Please also note that effective July 1, 2009 fax filings will no longer be accepted by the Clerk's Office.

If you have further questions about mandatory e-filing please visit our website at:
